Section I
Remuneration policy

I

Introduction

This Remuneration Report (the "Report") is divided into two sections:

- (i) Section I: the "Policy" for 2017 adopted by Atlantia and implemented by Group companies. This section is annually submitted to a non-binding consultative shareholder vote at Atlantia's Annual General Meeting (the "Meeting");
- (ii) Section II: the "Report" for 2016, providing detailed information on the compensation paid during the year.

The Report, approved by Atlantia's Board of Directors (the "Board") on 10 March 2017 on the recommendation of the Human Resources and Remuneration Committee (the "Committee") has been prepared in compliance with statutory and regulatory requirements pursuant to:

- art. 123-ter, Legislative Decree 58/98 as contained in the Consolidated Finance Act (the "CFA");
- art. 84-quarter of the Consob Regulations for Issuers, as amended;

- art. 6 of the Italian Stock Exchange's Corporate Governance Code for Listed Companies as implemented by Atlantia SpA ("Atlantia" or the "Company") as approved by the Board on 15 December 2016.

The Policy described herein, (the "Policy"), has been adopted by the Company as required by Consob Regulation 17221/2010 having regard to related party transactions and is compliant with the Procedure for Related Party Transactions (the "Related Parties Procedure") as implemented by Atlantia and published in the Corporate Governance section of Atlantia's website.

This Report has been filed with the Italian Stock Exchange and made available to the public at Atlantia's head office located at Via A. Nibby, 20, Rome, Italy and has also been published on the Company's website at least twenty-one days before the Meeting.

I. Scope of application

The Policy sets out principles and guidelines for the Atlantia Group (the “Group”) in setting the pay of:

- (i) members of the Boards of Directors, distinguishing between executive and non-executive directors;
- (ii) Key Management Personnel, being personnel directly and indirectly responsible for the

planning, management and control of the Company’s operations pursuant to Consob Regulation 17221/2010, as may be appointed from time by Atlantia’s Chief Executive Officer in accordance with the Company’s Related Parties Procedure.

2 • Purposes and principles of the Group's remuneration policy

The aim of the Group's remuneration policy is to reward sustainable performance with fair levels of remuneration within the organisation and competitive levels with respect to other companies considered to be comparable in terms of business and size.

This is achieved through the use of various types of reward designed to motivate and foster the loyalty of management, with the aim of creating sustainable value over time.

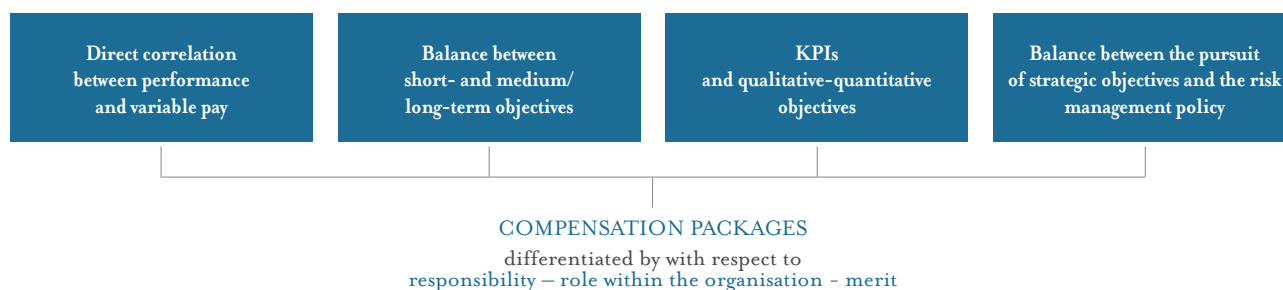

The pay structure consists of various components designed to attract, maintain and motivate qualified staff and reward the achievement of performance targets as determined in line with shareholder's interests. It has been given effect through the establishment of a compensation package consisting of interlinking variable and fixed components that form the basis for remuneration in keeping with the complexity of roles and levels of performance (both business and individual).

In particular, in order to strengthen the link between remuneration and the Company's medium/long-term interests, the remuneration policy for the cited individuals entails:

- the linking of a significant percentage of pay to incentive plans of at least three years in duration;
- incentive plans linked to operating performance and the performance of the share price;
- reinvestment/conversion of a part of the variable component into the Company's shares subject to a minimum holding requirement.

Atlantia's Policy is consistent with the Company's corporate governance model and the recommendations in the Corporate Governance Code.

The remuneration policy for 2017 was approved by the Annual General Meeting, with approximately 89% of those present voting in favour.

3 • Changes to the Policy with respect to the previous financial year

The Remuneration Policy for 2017 was drawn up on the basis of the policies adopted in previous years and past experience of implementation and taking into account the regulations introduced by the CONSOB. Compared with 2016, the Policy was revised so as to provide additional details regarding the pay mix, above in relation to the variable component. In 2016, the Group introduced a system that links performance – measured in terms of leadership – with the short-term incentive plan, resulting in an upward and a downward multiplier of the incentive achieved (and not based on targets). This mechanism has been adopted for the Annual MBO Plan for incentives linked to objectives for 2016 and the results of the

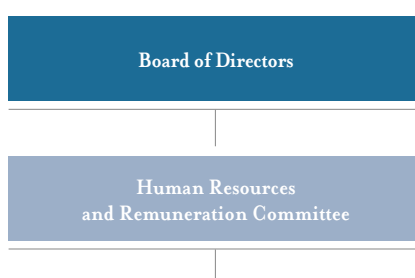

link will be presented in the Remuneration Report to be published in 2018, which, as usual, will include the results achieved in 2016, which are to be confirmed during 2017.

In addition, two new long-term incentive plans (LTIPs) have been drawn up, with the aim of more closely linking shareholders' objectives with those of management, ensuring that the level of incentives continues to reflect the challenges that the Group will face in the coming years. These plans will be contained in a specific proposal and report to be submitted to the Board of Directors and the Annual General Meeting.

4 • Human Resources and Remuneration Committee

Established in 2000 and renamed in 2010, the Human Resources and Remuneration Committee has five members who are all non-executive Directors and a majority of whom are independent.

5. Components of remuneration

5.1 Determination of the pay mix

The remuneration of executive Directors in office (who may also be employees of the Company or the

Group) and Key Management Personnel consists of:

- (i) a fixed component (see para. 5.2);
- (ii) a variable component (see para. 5.3); and
- (iii) benefits (see para. 5.4).

The determination of remuneration packages is based on the following principles:

- a balance between the fixed and variable pay components with reference to the Company's strategic objectives and risk management policy, taking into account the sectors in which it operates;
- with regard to the variable component of remuneration:
 - the setting of suitable annual and long-term pay weightings;
 - a correlation between remuneration and short- and medium/long-term performance objectives, which should be predetermined, measurable and closely linked to the creation of value;
 - inclusion of a bonus cap;
 - provision for a vesting period of at least three years for the long-term variable component;
 - inclusion of a clawback provision;
 - inclusion of a minimum holding period;
- addition a benefit package to compensation suitable to the role or position held;
- monitoring and analysis of pay practices in the Company's sectors in order to assure that overall remuneration is in line with the market.

Guidelines for compensation packages in line with the above principles are determined by the Group's Human Resources for each employee segment. The Human Resources and Remuneration Committee has established the pay mix for executive directors in office, who are also company employees, and Key Management Personnel.

The following diagrams show the target pay mix for the Chairman, Chief Executive Officer and the

Group's Key Management Personnel:

PAY MIX - CHAIRMAN			
Fixed	50%	LTIP	50%

PAY MIX - CEO/GENERAL MANAGER			
Fixed	33.3%	MBO	16.7%
		Deferred MBO	16.7%
		LTIP	33.3%

PAY MIX - KEY MANAGEMENT PERSONNEL (MEAN)			
Fixed	44%	MBO	10%
		Deferred MBO	10%
		LTIP	36%

Percentages related to MBO, deferred MBO (see para. 5.3.1) and LTIP plans are determined with reference to the target bonus as at 31 December 2016.

5.2 Fixed component

The fixed component rewards expertise and experience, in addition to compensating management in accordance with the respective role and responsibilities.

In order to ensure that base salaries are competitive and fair, the Company, supported by an external expert, analyses and monitors trends, practices and levels of remuneration in the market, using companies considered to be comparable in terms of business and size as a benchmark.

5.3 Variable components

The variable component for the Chief Executive Officer and Key Management Personnel is additional to the fixed component and rewards the achievement of short and medium/long-term objectives.

The direct correlation between incentives and performance enables the Group to differentiate between individuals on the basis of merit, rewarding each person's contribution and at the same time motivating management personnel.

The Board of Directors may provide for one-off cash payments to be made to executive Directors and Key Management Personnel on the recommendation of the Human Resources and Remuneration Committee.

The remuneration policy, with particular reference to the variable component, is designed to reward performance and leadership. During 2016, the Company, under the guidance of the Human Resources and Remuneration committee, devised a new Leadership Model and introduced a mechanism linking performance Management with the short-term variable component of pay.

Clawback provision

Clawback provisions enable the Company to request repayment, in full or in part, of variable components of remuneration paid (or to withhold sums subject to deferment), if determined on the basis of data shown to be manifestly inaccurate. Manifestly inaccurate data is understood to mean the data used for the purposes of confirming achievement of the performance targets set as part of incentive plans, on which the grant of options or units is conditional. Data may be manifestly inaccurate as a result of the following:

- an error in computing the results determining achievement of a target (the basis for payment of a variable component), which would not have been achieved had the material error not been present;
- a deliberate misstatement of the data used in order to measure achievement of targets; or
- the achievement of targets as a result of conduct contrary to the law or Company regulations.

In the latter two instances, the Company reserves the right to take action against those responsible for such conduct, including action in the manner and to the extent permitted by law.

5.3.1 Componente variabile di breve termine

HIGHLIGHTS

- Three-year MBO Plan
- 50% of bonus to be deferred each year at the end of the three-year period, based on strategic nature of targets, not solely on those of a financial or performance-related nature
- Link between the variable annual incentive and Performance and the Leadership Model

The purpose of the annual cash bonus is to reward the achievement of quantitative and qualitative corporate objectives, including sustainability, through linking corporate and individual performance.

This is implemented through management by objectives ("MBO") which is the only form of annual incentive system in the Group.

The annual MBO award is subject to a cap, which varies according to the individual's role within the Company and the Group, their ability to influence results and in relation to the relevant market.

The target variable components are:

- for the Company's CEO in office, 100% of fixed pay;
- for Key Management Personnel, 30% to 50% of fixed pay.

An "Annual/Three-year MBO" scheme has been

introduced.

This scheme, which uses a deferment mechanism, consists of an incentive plan for managers deemed to play an important role in achieving the Company's objectives. The scheme envisages:

- an annual MBO award (the "Annual Award") linked to individual targets, equal to 50% of the target incentive;
- an MBO award computed at the end of the three-year period 2014-2016 (the "Three-year Award") linked to the Group's three-year objectives, equal to 150% of the target incentive – 50% for each year of the period – plus an overperformance bonus of up to 30% of the target incentive.

During 2016, a link was introduced between the Performance Management system and the annual short-term variable component, with the aim of:

- encouraging the Group's management to adopt a new leadership model oriented towards results, change, team leadership and people development;
- linking variable incentives with Performance Management.

The Performance achieved results in an upward and a downward multiplier to be applied to the Annual MBO bonus awarded.

The following table shows i) the timing of awards and confirmation of the targets and ii) the general features of the scheme.

Timing of the awards and of confirmation of the targets for the Annual/Three-year MBO scheme

5.3.2 Long-term incentive plans

HIGHLIGHTS

- Rolling Three-year Plans
- Minimum Holding requirement for executive Directors and Key Management Personnel
- Deferred exercise of vested options/units
- Cap on realisable gain
- Vesting of options/units subject to achievement of specific three-year financial and performance targets (Hurdles)
- Plan payouts to be linked to Atlantia's share price performance

The following other Plans are currently in operation:

- 2014 Phantom Share Option Plan ("2014 Phantom SOP")
- 2011 Share Option Plan ("2011 SOP");
- 2011 Share Grant Plan ("2011 SGP");
- MBO Share Grant Plan ("SGMBO") – with reference to the MBO plans for 2011, 2012 and 2013.

The Company's executive Directors in office, Key Management Personnel and other managers with important roles within the Group are beneficiaries of the plans.

The long-term incentive targets, awarded on achievement of the Target Value set for each annual award cycle, are:

- for the Company's Chairman in office: 100% of fixed pay;
- for the Chief Executive Officer in office: 100% of fixed pay;
- for Key Management Personnel: 40%-100% of fixed pay.

The plans were conceived to facilitate retention and provide incentives for management, thereby boosting the value of the Company and disseminating a corporate culture of value creation in all strategic and operating decision making. The plans have the following features:

- three year plans with rolling annual awards;
- a hurdle - to be achieved before any options or units are awarded;

PLAN	HURDLE
SOP 2011-2013 (all cycles)	Cumulative operating cash flow over three years
SGP 2011-2013 (all cycles)	Cumulative operating cash flow over three years
SGMBO 2011-2013 (all cycles)	Annual operating cash flow
Phantom SP 2014-2016 (present cycles)	ROIC over three years (Operating Cash Flow/ Invested Capital)

- a three-year vesting period;
- further deferment with respect to the vesting period:
 - 12 months for the exercise of 50% of options;
 - 12 months for the conversion of 50% of the grants and 24 months for the remaining 50%;
- amount of the bonus linked to Atlantia's target share price;
- the right to exercise options and convert grants is conditional on the continuing effectiveness of concessions for the two principal lines of the Group's business (motorways and airports) or will be suspended in the event a forfeiture is pending;
- a cap on total gains for each beneficiary and for any one award cycle;
- a minimum holding period: beneficiaries who are executive directors and Key Management Personnel must hold or acquire vested shares for a fixed period of time.

Two Long-Term Incentive Plans for the three-year period 2017-2019, called 2017 Phantom Stock Option Plan ("2017 Phantom SOP") and 2017 Phantom Stock Grant Plan ("2017 Phantom SGP") are in the process of being approved by the Annual General Meeting. The introduction of these plans has the same purpose as the above plans, namely to retain and provide incentives for management, combined with the dissemination of a value creation culture in all strategic decision making. In addition, there is a need to align these instruments with the various market scenarios we expect to see in the coming years, increasing the link between share price performance and management incentives.

Key aspects of these plans are:

- three year plans with rolling annual awards;
- a hurdle – to be achieved before any options or units are awarded;
- a three-year vesting period;
- further deferment with respect to the vesting period for the conversion of 50% of the grants/options;
- amount of the bonus linked to Atlantia’s target share price;
- the right to convert the grants/options is conditional on the continuing effectiveness of concessions for the two principal lines of the Group’s business (motorways and airports) or will be suspended in the event a forfeiture is pending;
- a minimum holding period: beneficiaries who are executive directors and Key Management Personnel must hold or acquire vested shares for a fixed period of time.

The following table shows the time distribution of existing Plans as at 31 December 2016:

(*) Beneficiaries who are executive directors and Key Management Personnel must hold (or, if necessary, repurchase) a portion of the exercised/converted shares for a fixed period of time (minimum holding requirement).

5.3.3 Incentive curves

The variable pay component associated with each

of the above existing incentive plans adopted by the Company is correlated to the achievement of predetermined targets, as shown below:

Below the minimum threshold or hurdle not achieved	0% of target bonus	0% of target bonus	0% of target bonus	0% of target bonus

5.4 Benefits

Benefits are goods and/or services received by employees and are subject to the regulations in force.

Certain types of benefit to be added to the compensation package to form total reward are used to motivate and retain management.

Benefit plans vary according to level of management and principally consist of pension, insurance and health plans.

The Chief Executive Officer may authorise the award of specific benefits, subsequently informing the Human Resources and Remuneration Committee of his decision.

6. Payments due in the event of termination of office or employment and non-compete agreements

The Board may, on recommendation of the Committee, provide a payment to executive Directors in the event of early termination of their service contract, or non-renewal thereof, is computed in such a way that the total amount payable does not exceed a certain number of years of annual pay. This payment may not be made for termination due to the director's objectively unsatisfactory performance. Group policy also requires non-competition undertakings by executive Directors, General Managers and other Key Management Personnel.

7 ● Directors' remuneration

Board Directors' remuneration in office consists of:

- a) gross fixed annual compensation (pursuant to art. 2389, para. 1 of the Italian Civil Code), as determined by the Annual General Meeting;
- b) an attendance fee for each Board meeting;
- c) any additional payments in respect of specific positions occupied (e.g. membership of Board Committees).

The remuneration of non-executive Directors is not linked to the Company's earnings performance, nor do they participate in short- or medium/long-term incentive plans.

7.1 Chairman

The remuneration of non-executive Directors is not linked to the Company's earnings performance, nor do they participate in short- or medium/long-term incentive plans.

- a) a gross fixed annual component split into a salary component pursuant to art. 2389, para. 1 of the Italian Civil Code and compensation pursuant to art. 2389, para. 3 of the Italian Civil Code;
- b) a long-term variable share-based component (LTIP);
- c) benefits.

There are no annual incentives for the Chairman in office. There are no *ex ante* severance agreements for the Chairman, governing the early termination of his contract by either the individual concerned or the Company. The impact of contract termination on any options or units awarded under long-term incentive plans is described in the Information Circulars published on the Company's website.

7.2 Chief Executive Officer/General Manager

Total annual gross remuneration payable to the Chief Executive Officer/General Manager in office is determined by the Board of Directors in consultation with the Board of Statutory Auditors, on the recommendation of the Human Resources and Remuneration Committee, and consists of:

- a) a gross fixed annual component split into a salary component pursuant to art. 2389, para. 1 of the Italian Civil Code and compensation pursuant to art. 2389, para. 3 of the Italian Civil Code and employment income;
- b) an annual variable MBO component, split into a salary component pursuant to art. 2389, para. 3 of the Italian Civil Code and variable compensation, of which 50% deferred;
- c) a long-term variable component split between a deferred MBO Plan and a share-based LTIP;
- d) benefits.

In compliance with art. 6 of the Corporate Governance Code for listed companies, the fixed component is designed to be sufficient to remunerate the services of the Chief Executive Officer, should the variable component not be paid due to failure to achieve the performance targets set by the Board of Directors. The characteristics of the variable MBO component and the LTIP are described in paragraph 4.3.

The existing contract between the Chief Executive Officer/General Manager in office and Atlantia SpA specifically provides for payment of an indemnity in the event of termination in the following cases:

- a) dismissal by the Company without cause;
- b) revocation/non-renewal of positions (without

- cause), reduction of powers, reduction of fixed/variable compensation;
- c) dismissal as a manager for cause;
 - d) dismissal as a manager within 60 days of completion of a corporate transaction entailing a change of control of the Company following the sale of shares (unless agreed by the manager).

The above will result in payment of a gross lump-sum amount equal to two times average total remuneration (i.e., the gross basic salary received as an employee at the date of termination, the gross basic salary received as a Director at the date of termination and the average variable annual compensation/MBO bonus received in the last three years).

Pursuant to the provisions of paragraph 2.3 of Consob Ruling DEM/11012984 of 24 February 2011 (sub-paragraph c), it should be noted that with regard to the impact of contract termination on any options or units awarded under incentive plans, the contract provides that, in the event of termination of the position held at Atlantia and the powers assigned by Atlantia under sub-paragraphs a), b), c) and d) above, the Chief Executive Officer/General Manager:

- 1. without prejudice to the prerogative of the competent bodies, thus subject to the relevant determinations, will continue to exercise all the rights attributed under additional stock option or share-based plans or plans covering additional financial instruments issued in future, provided that the activity performed in the period of reference for the vesting of options or units under such plans is not shorter than 50% of

the same period and, in any case, subject to the achievement of the targets set and the fulfilment of each additional condition provided for by each plan or programme (other than continuing employment) and save for any different and more favourable determination by the competent bodies;

- 2. will conserve – to an extent that will be calculated on the basis of the degree to which targets have been achieved at the end of the plan, and subsequently prorated in relation to the activity effectively carried out during the period of reference – all the rights deriving from cash incentive plans implemented in future.

7.3 Key Management Personnel

The total compensation package of Key Management Personnel consists of:

- a) gross fixed annual compensation;
- b) an annual variable MBO component, of which 50% deferred;
- c) a long-term variable component split between a deferred MBO Plan and a share-based LTIP;
- d) benefits.

There are no *ex ante* severance agreements for the Key Management Personnel, governing the early termination of his contract by either the individual concerned or the Company. Any termination will thus be governed by the terms and conditions set out in the National Collective Labour Contract for management personnel at companies that produce goods and services or by separate individual agreements.

Table I - Compensation paid to Directors, Statutory Auditors, General Managers and other Key Management Personnel

Introduction

The following table shows the remuneration paid to Directors, Statutory Auditors and, on an aggregate basis, other Key Management Personnel.

The notes indicate remuneration transferred by Atlantia to other companies; no indication is given of remuneration received from subsidiaries and/or associates, as transferred entirely to the Company. All persons holding the above positions during the year have been included, even if the position was held for only a fraction of the year.

Specifically:

- the column headed “**Fixed compensation**” contains accrued fixed emoluments and employment income for the year, gross of social security contributions and taxes payable by the employee, and includes attendance fees for participating in Board of Directors’ meetings and General Meetings. A note shows detailed compensation paid with employment income, if any, shown separately;
- the column headed “**Compensation for membership of Committees**” shows accrued compensation for Directors’ membership of Board Committees. A note separately shows compensation paid to the Chairman and members of each Committee of which a Director is a member;
- the column headed “**Bonuses and other incentives**” under “**Variable non-equity incentives**” shows maximum incentives payable for the year in the

form of cash bonuses following corporate bodies’ assessment of the achievement of performance targets for 2016 (not yet paid as of the date of approval of this Remuneration Report), and any other bonuses payable for the year not included in incentive plans drawn up ex ante, as explained in greater detail in Table 3B “Monetary incentive plans in favour of Directors, General Managers and other Key Management Personnel”;

- the column headed “**Profit-sharing**” is empty since there is no form of profit-sharing;
- the column headed “**Benefits**” shows the accrued tax value of fringe benefits;
- the column headed “**Other remuneration**” shows other compensation payable for other services rendered in 2016;
- the “**Total**” column shows the total of all preceding amounts;
- the column headed “**Fair value of share-based payments**” shows the total fair value of options vested during the year computed by prorating aggregate fair value as determined using actuarial techniques at the date of award for the actual number of days accrued for the year. The amount shown is the total of the fair value columns of tables 2 and 3A;
- the column headed “**Severance pay and post-employment benefits**” shows the amount paid under termination agreements entered into with Key Management Personnel in 2016.

The following table shows the Atlantia share options that have been or may in future be exercised under share option plans by the Chairman, Chief Executive Officer/General Manager, and, on an aggregate basis, other Key Management Personnel (including all persons who held such positions for all or part of the relevant year).

Specifically:

- the columns headed “**Options held at beginning of year**” contain the options awarded to the above beneficiaries in previous years and in 2014;
- the columns headed “**Options awarded during year**” contain information on the options awarded in 2016. The figures relating to options awarded to Key Management Personnel are aggregates so that the columns show the aggregate number of options awarded, the exercise price, the price of the underlying shares at the grant date and their aggregate fair value at the grant date. A note provides details of the type of options awarded and the related fair value;
- the columns headed “**Options exercised during year**” contain information on the options exercised in 2016. The number of options awarded to Key Management Personnel is an aggregate so that the columns show the aggregate number of options exercised, the exercise price and the weighted average price of the underlying shares at the exercise date;

(1) The number of vested financial instruments not awarded was assessed on completion of both conversion tranches, after taking into account application of the cap.

(2) As provided for in the Terms and Conditions, the second tranche of the vested share grants was converted into Atlantia shares during the year;

(3) As provided for in the Terms and Conditions: (i) the first tranche of the vested share grants was converted into Atlantia shares during the year; (ii) the remaining units will be converted at the end of the second year after vesting. The number of vested and unawarded financial instruments will be assessed on completion of both conversion tranches, taking into account application of the cap.

(4) Share grants will be converted into Atlantia shares as follows: (i) up to 50% of the units at the end of the first year after vesting, (ii) the remaining units at the end of the second year after vesting, so the effective value of the converted shares can only be computed at such date.

(5) Additional units awarded in lieu of dividends paid during the vesting period for the 2012 MBO Share Grant Plan and paid in cash, in accordance with the Plan Terms and Conditions. The FV of the additional units is included in the award to the CEO/General Manager dated 2 May 2013 and the award to Key Management Personnel dated 8 May 2013. These units do not, therefore, represent the award of new benefits.

(6) This figure does not include the value resulting from remeasurement, based on the performance of Atlantia's shares, of the FV of additional units for dividends paid during the vesting period and paid in cash.
