MUNDYS: LATEST EDITION OF TAX TRANSPARENCY REPORT

Rome, 10 July 2026 – The latest Tax Transparency Report for 2025, a key part of Mundys’s tax strategy and transparency, has been approved by the Board of Directors and published. The document, marking the fifth edition, provides detailed information on the policies and tools used by the Group to make economic and financial contributions to the jurisdictions and economies in which it operates, promoting transparent and sustainable tax management.

In keeping with the past, the Tax Transparency Report 2025 again applies the Total Tax Contribution framework, with the aim of providing a comprehensive view of the taxes directly borne by Mundys and those collected on behalf of local tax authorities.

Mundys’s Total Tax Contribution in 2025 amounted to €2,930 million, up 2% on the €2,873 million of the previous year. This includes €1,569 million in taxes borne (54%) and €1,361 million in taxes collected (46%).

The figures confirm the improvement in the Group’s performance across all sectors of business.
